

To Log a Bug

1. [Go to the Issues page on your semester's testing Github repo \(provided by the TAs\)](#)

2. Click on "New Issue"

The screenshot shows the GitHub interface for the repository `cs340tabyu / CatanBugTracker`. At the top, there's a navigation bar with links for Pull requests, Issues, and Gist. Below this, the repository name is displayed along with 'Unwatch' and 'Star' buttons. The main content area has tabs for Issues, Pull requests, Labels, and Milestones. A search bar with the filter 'is:issue is:open' is present. A red box highlights the 'New issue' button and the code icon next to it. Below the tabs, a large gray box contains a welcome message: 'Welcome to Issues!' followed by an explanation of how issues are used and a link to 'create an issue'. At the bottom, a 'ProTip!' suggests excluding one's own issues with the filter `-author:cs340tabyu`. The footer includes copyright information for GitHub, Inc. and various links like Terms, Privacy, Security, Contact, Help, Status, API, Training, Shop, Blog, About, and Pricing.

3. Enter a title and description. This includes the steps to reproduce the bug. Screen shots can be attached as well. (The title in the title input, the description in the comment input)

4. Select the Labels option on the right

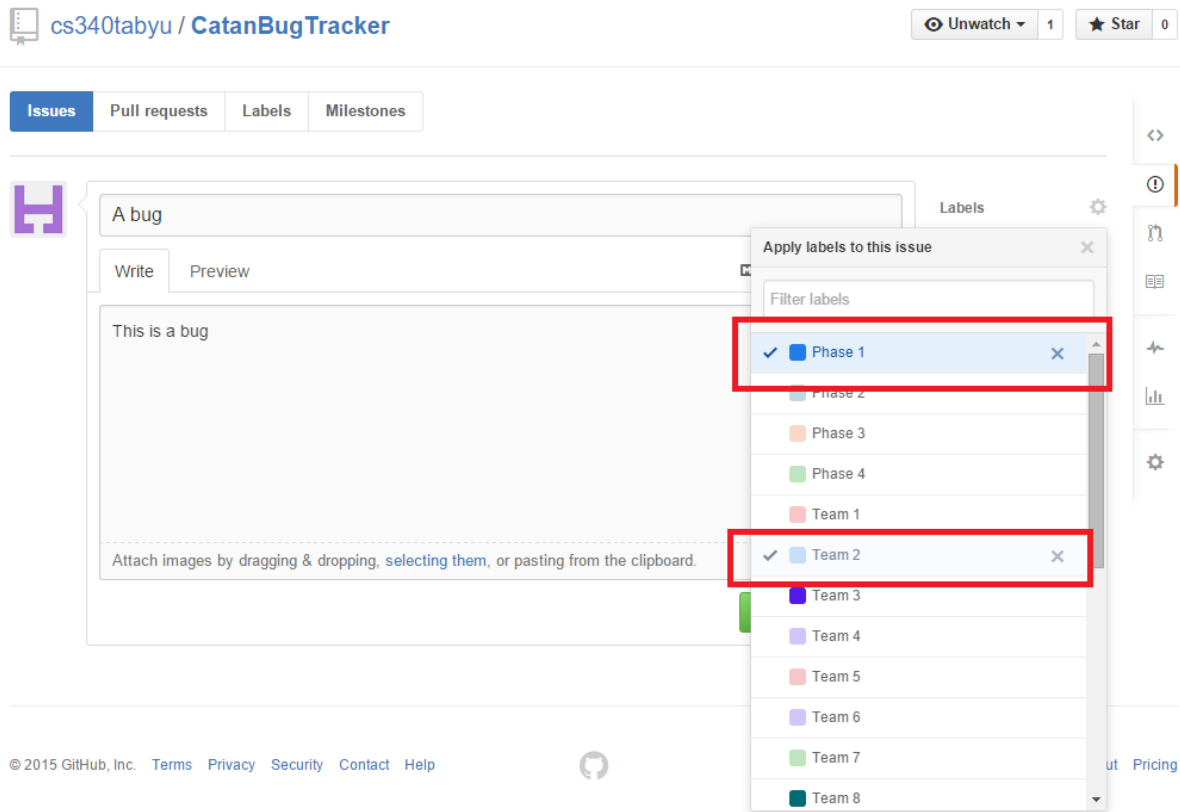

The screenshot shows the GitHub interface for creating a new issue in the repository 'cs340tabyu / CatanBugTracker'. The 'Issues' tab is selected in the top navigation bar. On the right side, there is a sidebar with configuration options for the new issue. The 'Labels' section is highlighted with a red box, showing 'None yet' with a gear icon. Other sections in the sidebar include 'Milestone' (No milestone), 'Assignee' (No one—assign yourself), and a 'Submit new issue' button at the bottom.

5. A pop down will appear

6. Select the phase and team this bug should be reported to. (Not your team, the team who you

are testing)

7. X out of the label drop down, and then submit the bug

The screenshot shows the GitHub 'New issue' page for the repository 'cs340tabyu / CatanBugTracker'. The 'Issues' tab is selected. The title field contains 'A bug' and the body field contains 'This is a bug'. The 'Submit new issue' button is highlighted with a red rectangle. On the right, the 'Labels' section shows 'Phase 1' and 'Team 2' selected, and the 'Assignee' section shows 'No one—assign yourself'.

8. Boom that's it!

Scroll to the next page to view the bugs logged against you

To view the bugs logged against you:

1. [Go to the Issues page on your semester's testing Github repo \(provided by the TAs\)](#)
2. In the search box enter `[label:"Phase X" label:"Team Y"]`, where X is the phase you want to see and Y is your team number. **Press enter**

The screenshot shows the GitHub interface for the repository `cs340tabyu / CatanBugTracker`. At the top, there are tabs for 'Pull requests', 'Issues', and 'Gist'. The 'Issues' tab is selected. Below the repository name, there are buttons for 'Unwatch' (1) and 'Star' (0). The main section has tabs for 'Issues', 'Pull requests', 'Labels', and 'Milestones'. The 'Issues' tab is active. A search bar is highlighted with a red box, containing the query `is:issue is:open label:"Phase 1" label:"Team 2"`. To the right of the search bar is a 'New issue' button. Below the search bar, there is a 'Clear current search query, filters, and sorts' button. The results section shows '1 Open' and '0 Closed' issues. The first issue is 'A bug' with labels 'Phase 1' and 'Team 2'. Below the issue list, there is a 'ProTip!' that says 'Exclude your own issues with `-author:cs340tabyu`'.
